## How to find us on arrival to Povlja:

When you drive towards Povlja, take the first entrance road into the town and after 300 meters you should be passing by the church.

Continue straight forward for some 600 meters up to a sharp U-bend (don't drive into the bend), where you continue driving straight on to the top of the uphill section.

Now you drive towards the sea and after some 150 meters, after a mild bend you will get into the settlement of weekend homes „Punta“.

Immediately before the first house along the road, turn right into the first access street.

After some 20 meters of slight uphill drive, turn left into the first access street.

The first house after 30 meters on the right hand side is your destination.
